What we look for in our technology investments

Defensively positioned

Recession resilience

Mission-critical systems of record with low discretionary spend risk (i.e., systems of record, regulatory)

Structural durability

Moats built on proprietary data, scale, embedded workflows, and enterprise trust at the core of operations

Diverse customer base

Lower customer concentration

Market-leaders in their sectors

Leaders in attractive verticals

Sustainable, scaled leadership position in a growing market

High switching costs

Highly embedded solutions fundamental to key workflows

Strong historical growth

Demonstrated track record of growth and continued market penetration

Attractive credit profiles

Strong free cash flow potential

Negative working capital dynamics and low capex requirements

Attractive unit economics

High customer lifetime value with respect to cost of acquisition

Strong KPIs

Lower LTVs, high revenue retention, high gross margin and stable sales efficiency

Our underwriting thesis remains focused on "sticky," mission-critical businesses where AI serves as an additive layer rather than a replacement

Where Blue Owl Technology Lending focuses

Large, established technology companies

Investing in innovation for attractive, non-correlated returns

Leveraging Blue Owl's extensive platform capabilities to access compelling growth opportunities

Life sciences credit and royalty

Overview: Structured credit and royalty financing to commercial-stage life science companies and assets. These products are supported by durable patent protection, high gross margins, and predictable revenue streams.

Opportunity: Investing in innovation at scale with investment sizes up to \$2B, with the ability to participate in upside.

Capabilities: Dedicated team of life sciences investment professionals with deep scientific and capital markets expertise.

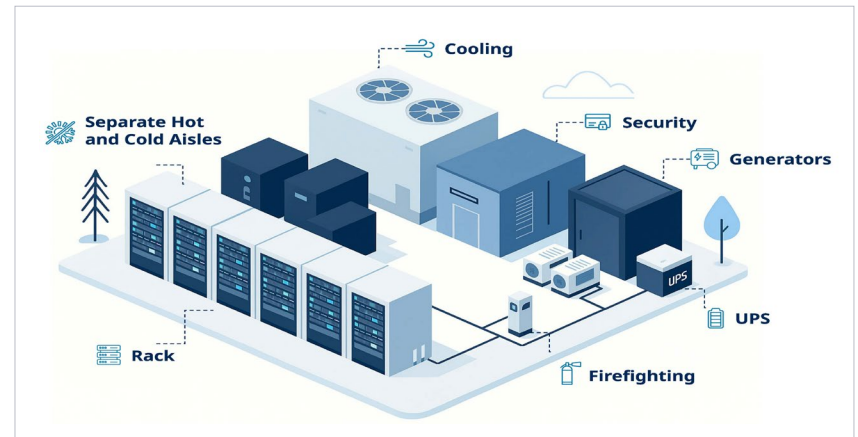

AI infrastructure

Overview: Financing AI data center and GPU buildouts through long-term contracts with investment-grade counterparties, earning attractive credit spreads.

Opportunity: Hyperscalers are making significant capital investment in AI infrastructure, creating attractive financing opportunities and a pipeline of follow-on financing from recurring equipment refresh cycles.

Capabilities: Cross-functional expertise across Blue Owl Technology Lending, Equipment Financing, and Digital Infrastructure.

These high-conviction technology areas currently make up 3% of OTF's portfolio at fair value¹

Internal Rating Definition

1	The borrower is performing above expectations, and the trends and risk factors for this investment since origination or acquisition are generally favorable
2	The borrower is generally performing as expected and the risk factors are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a rating of 2
3	The borrower is performing below expectations and the loan's risk has increased somewhat since origination or acquisition
4	The borrower is performing materially below expectations and the loan's risk has increased materially since origination or acquisition. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due (but generally not more than 120 days past due)
5	The borrower is performing substantially below expectations and the loan's risk has increased substantially since origination or acquisition. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans rated 5 are not anticipated to be repaid in full and we will reduce the fair market value of the loan to the amount we anticipate will be recovered

1. Total return is calculated as the change in net asset value (“NAV”) per share, plus any dividends and distributions paid in cash and not reinvested, divided by the beginning NAV per share. Returns greater than one year are annualized. The inception date for OTF is 8/30/2018.
2. “Average annual net gain/loss rate” is calculated by averaging the ‘annual total net realized gain/loss rate’ since the fund’s inception through 1Q26. ‘Annual total net realized gain/loss rate’ is defined as the total net realized gain or loss for a given year, divided by the average quarterly investments at amortized cost for that year. Results are calculated at the portfolio level and do not reflect the deduction of management fees, incentive fees, financing costs, or expenses. This metric reflects realized activity only and does not include unrealized gains or losses; it is not a measure of total return.
3. Weighted average total yield of debt and income producing securities at fair value. For non-stated rate income producing investments, computed based on (a) the dividend or interest income earned for the respective trailing twelve months ended on the measurement date, divided by (b) the ending fair value. In instances where historical dividend or interest income data is not available or not representative for the trailing twelve months ended, the dividend or interest income is annualized.
4. Annualized dividend yield calculated as Q1’26 annualized base dividend of \$0.35 per share and Q1’26 annualized special dividend of \$0.05 per share payable to shareholders of record as of March 31, 2026 divided by Q1’26 net asset value per share of \$16.49.

1. Borrower financials are derived from the most recently available portfolio company financial statements, typically a quarter in arrears, have not been independently verified by Blue Owl, and may reflect a normalized or adjusted amount. Accordingly, Blue Owl makes no representation or warranty in respect of this information. As of March 31, 2026, 77.9% of our portfolio at fair value is primarily comprised of first or second lien loans. These positions have a weighted average annual revenue of \$936.8 million, weighted average annual EBITDA of \$284.7 million, and a weighted average enterprise value of \$5.5 billion. 13.4% of our portfolio at fair value is primarily comprised of unsecured debt and equity investments. These positions have a weighted average annual revenue of \$1.4 billion and enterprise value of \$14.5 billion. These statistics exclude certain strategic portfolio transactions and investments that fall outside of our typical borrower profile, which comprise 8.7% of the book at fair value.
2. “Net LTV” represents the net ratio of “loan to value” for each portfolio company, weighted based on the fair value of OTF’s loan investment. The “attachment point” is the principal amount of debt that is senior to OTF’s loan investment, and that amount plus the principal amount of the loan in which OTF invested and other equally ranked debt is the “last dollar” amount. “Value” represents an estimate of enterprise value of each portfolio company, a calculation that will vary by portfolio company.
3. Total return is calculated as the change in net asset value (“NAV”) per share, plus any dividends and distributions paid in cash and not reinvested, divided by the beginning NAV per share. Returns greater than one year are annualized. The inception date for OTF is 8/30/2018.
4. “Average annual net gain/loss rate” is calculated by averaging the ‘annual total net realized gain/loss rate’ since the fund’s inception through 1Q26. ‘Annual total net realized gain/loss rate’ is defined as the total net realized gain or loss for a given year, divided by the average quarterly investments at amortized cost for that year. Results are calculated at the portfolio level and do not reflect the deduction of management fees, incentive fees, financing costs, or expenses. This metric reflects realized activity only and does not include unrealized gains or losses; it is not a measure of total return.

1. Fair value.
2. Non-accrual rate represents the fair value of investments on non-accrual status divided by the fair value of the total portfolio. Loans are generally placed on non-accrual when there is reasonable doubt that principal or interest will be collected in full, at which time accrued interest is typically reversed. Loans may return to accrual status when amounts are brought current and are expected to remain current, subject to management judgment.
3. As part of its portfolio monitoring process, Blue Owl Technology Credit Advisors LLC employs an investment rating system to categorize our investments, where 1 is the highest rating and 5 is the lowest.

1. Total return is calculated as the change in net asset value ("NAV") per share, plus any dividends and distributions paid in cash and not reinvested, divided by the beginning NAV per share. Returns greater than one year are annualized. The inception date for OTF is 8/30/2018.
2. Indices listed do not represent benchmarks for the funds but allow for comparison of a fund's performance to an Index. An investor cannot invest directly in an index. Index performance does not reflect fees and expenses which may include management fees, access fund expenses, and administrative fees. High Yield represented by the Bloomberg Barclays High Yield Index. Leveraged Loans represented by Morningstar LSTA U.S. Leveraged Loan Index.
3. BDC peer group consists of the ten largest publicly traded BDCs by total assets, excluding internally managed funds and other Blue Owl-managed BDCs, as of March 31, 2026. Peers include: ARCC, BXSL, FSK, GBDC, PSEC, MSDL, TSLX, GSB, MFIC, OCSL.

1. Distribution payments are not guaranteed. Blue Owl Technology Finance Corp. may pay distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and advances or the deferral of fees and expense reimbursements. The payment of future distributions is subject to the discretion of OTF's board of directors and applicable legal restrictions, therefore there can be no assurance as to the amount or timing of any such future distributions.
2. "Average annual net gain/loss rate" is calculated by averaging the 'annual total net realized gain/loss rate' since the fund's inception through 1Q26. 'Annual total net realized gain/loss rate' is defined as the total net realized gain or loss for a given year, divided by the average quarterly investments at amortized cost for that year. 1. Weighted average total yield of the portfolio at fair value. Calculated based on the interest rate and the accretion of OID. OID represents OID earned on the investment by a Blue Owl BDC. Separately, a Blue Owl adviser may engage in certain origination activities and receive attendant arrangement, structuring or similar fees. As such OID could have been higher had the Blue Owl Advisers not collected this fee.
2. Weighted average total yield of debt and income producing securities at fair value. For non-stated rate income producing investments, computed based on (a) the dividend or interest income earned for the respective trailing twelve months ended on the measurement date, divided by (b) the ending fair value. 2. Excludes investments made through a joint venture in which OTF is invested.
3. Assumes each floating rate commitment is subject to the greater of the interest rate floor (if applicable) or 3-month SOFR as of the applicable reporting date.

Non-GAAP Disclosures

On a supplemental basis, the Company is disclosing certain adjusted financial measures, each of which is calculated and presented on a basis of methodology other than in accordance with GAAP (“non-GAAP”). The Company’s management utilizes these non-GAAP financial measures to internally analyze and assess financial results and performance. These measures are also considered useful by management as an additional resource for investors to evaluate the Company’s ongoing results and trends, as well as its performance, excluding non-cash income and expenses. The presentation of non-GAAP measures is not intended to be a substitute for financial results prepared in accordance with GAAP and should not be considered in isolation.

- **“Adjusted Net Investment Income”** and **“Adjusted Net Investment Income Per Share”**: represent net investment income, excluding any change in capital gains incentive fees accrued but not payable. These fees are related to cumulative unrealized gains in excess of cumulative net realized gains less any cumulative unrealized losses, less capital gains incentive fees paid inception to date.
- **“Adjusted Net Income (Loss)”** and **“Adjusted Net Income Per Share”**: represent net income, excluding any change in capital gains incentive fees accrued but not payable.

Non-GAAP Disclosures

The following table provides a reconciliation of net investment income (the most comparable U.S. GAAP measure) to adjusted net investment income for the periods presented:

Forward-Looking Statements

Certain statements made in this presentation are “forward looking statements” within the meaning of the “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995 because they relate to future events, future performance or financial condition of Blue Owl Technology Finance Corp. (NYSE: OTF). When used in this presentation, the words “estimates,” “projected,” “expects,” “anticipates,” “forecasts,” “plans,” “intends,” “believes,” “seeks,” “may,” “will,” “would,” “should,” “future,” “propose,” “target,” “goal,” “objective,” “outlook” and variations of these words or similar expressions (or the negative versions of such words or expressions) are intended to identify forward-looking statements.

These forward-looking statements are not guarantees of future performance, conditions or results, and involve a number of known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside OTF’s control, that could cause actual results or outcomes to differ materially from those discussed in the forward-looking statements. Any such forward-looking statements are made pursuant to the safe harbor provisions available under applicable securities laws and speak only as of the date of this presentation. OTF’s assumes no obligation to update or revise any such forward-looking statements except as required by law.

Certain factors could cause actual results and conditions to differ materially from those projected, including the uncertainties associated with (i) the expected synergies and savings associated with the merger; (ii) the ability to realize the anticipated benefits of the merger, including the expected accretion to net investment income and the elimination or reduction of certain expenses and costs due to the merger; (iv) changes in the economy, financial markets and political environment; (v) the impact of geo-political conditions, including revolution, insurgency, terrorism or war, including those arising out of the ongoing war between Russia and Ukraine and the escalated conflict in the Middle-East, including the Israel-Hamas conflict, and general uncertainty surrounding the financial and political stability of the United States, the United Kingdom, the European Union and China, on financial market volatility, global economic markets, and various markets for commodities globally such as oil and natural gas; (vi) future changes in law or regulations; (vii) conditions to OTF’s operating areas, particularly with respect to business development companies or regulated investment companies; (viii) an economic downturn, elevated interest and inflation rates, ongoing supply chain and labor market disruptions, including those as a result of strikes, work stoppages or accidents, instability in the U.S. and international banking systems, and the risk of recession or a shutdown of government services could impact business prospects of OTF and its portfolio companies; (ix) the ability of Blue Owl Technology Credit Advisors LLC to locate suitable investments for OTF and to monitor and administer its investments; (xi) the ability of Blue Owl Technology Credit Advisors LLC to attract and retain highly talented professionals; and (xii) other considerations that may be disclosed from time to time in OTF’s publicly disseminated documents and filings with the Securities and Exchange Commission (“SEC”).

The information contained in this presentation is summary information that is intended to be considered in the context of OTF’s filings with the SEC and other public announcements that OTF may make, by press release or otherwise, from time to time.
